

Wisconsin FAAS Team presents:

Improve Your Weather Forecasting Skills Seminar and Chili Lunch

Come prepared to expand your knowledge and feed your body. This event includes two separate WINGS seminars. You may choose to register for and attend one or both sessions.

'Improve Your Weather Forecasting Skills' will be presented in the morning by Rich Mamrosh, a National Weather Service aviation forecaster.

Rich is an engaging speaker who relates his topic directly to pilots and real-world flying. He will explain and illustrate the use of Skew-T/Log-P (or simply Skew-T for short) diagrams. These diagrams are a powerful tool for weather forecasting and are used extensively by glider pilots. Although they offer valuable information for any pilot, these diagrams are not as well known outside the soaring world. During this seminar Rich will strip away the veil of Skew-T mystery, leaving participants with a clear, practical understanding of these diagrams and how they can be used in flight planning. Those who are already familiar with these diagrams will enjoy Rich's interactive approach that relates Skew-T diagrams to actual weather conditions. Matching weather photos to their corresponding Skew-T diagrams will allow participants to test their understanding. Rich's presentation includes a question and answer session. Lunch will follow with chili, cornbread and fixings. \$5/bowl.

Event Details

Sat, Feb 27, 2016 - 10:00 CST

Jet Air

1921 Airport Drive
Green Bay, WI 54313

Contact: KAREN ANN KALISHEK
(920) 819-4774

Select #: GL1367516

Lead Representative KAREN ANN KALISHEK

The second seminar will begin at 12:45 pm. EAA government advocacy specialist Mack Dickson will give a presentation on the organization's latest advocacy efforts and how they impact you as a general aviation stakeholder. Please see 'Legislative Update for General Aviation Pilots' to register for Mack's presentation.

Jet Air Group will beat any advertised fuel price within 75nm of the Green Bay airport for those attending. See additional information for details.

Directions: Hangar attached to main FBO building

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
